THE PEOPLE'S PRESS  
FOR 1884.  
ENLARGED AND IMPROVED.

\$1.50 A YEAR.

The Press entered its thirty-second volume on January 1st, 1884.

Now is the time to subscribe. It will be our endeavor to make the Press more interesting and enterprising.

L. V. & E. T. PLUM,

Salem, N. C., Jan. 3, 1884.

Snow and ice in many localities North and West.

A largely attended meeting of the members of the Grand Army of the Republic was held Saturday night in Brooklyn, N. Y., to take action to aid the veteran soldiers of the Southern army in their efforts to raise funds to build a home for the disabled soldiers of the South. A committee was appointed to decide upon the best means of raising money for the purpose.—*Goldsboro Messenger.*

The Charlotte *Home Democrat* calls attention to the public school law requiring commissioners to take a deed in fee simple for all sites on which a public school house is to be erected; that said deed shall be probated, recorded and filed with the county treasurer. The county treasurer is prohibited from paying for building or repairing any house unless it is on land deeded to the commissioners and their successors in office. Most of the school sites purchased before 1860 in North Carolina were lost, because no deeds were taken, or, if taken, were never recorded, and lost. The attention of county school officers is called to this requirement of the law.—*Mes-senger.*

The first installment of Scotch crofters, twelve in number, who are to locate on the Carolina Central Railroad, near Lumberton, arrived last week, and will be followed in a few days by a batch of sixty more. They met with the reception of welcome, and appeared well satisfied with the new homes prepared for them.

**THE TRUTH.**—Josiah Turner, Esq., has commenced the publication of a very interesting large monthly newspaper, entitled as above, at Durham, the first number of which is before us. It is said it will be devoted principally to recording historical and other facts relative to this State. We wish the enterprise success.

**RALEIGH REGISTER.**—We have received the first number of the Raleigh *Register*, a large and beautiful Democratic paper, issued weekly in Raleigh, by P. M. Hale, Esq.

We have no doubt the *Register* will rank among the first papers of the State, as its namesake did in the oiden times.

From Washington.

The Senate passed the bill making an annual appropriation to provide arms and equipments for the militia. It appropriates annually \$600,000 for the purpose of providing arms, equipments, ammunition, ordnance stores and tents for the militia. It requires that the money shall be apportioned among the several States and Territories according to the number of Senators, Representatives and Delegates to which each is respectively entitled. It is provided, however, that each State Territory shall only be entitled to the benefits of so much of the apportionment apportioned to it as the proportion on its regularly organized militia bears to the maximum number of active militia for which such State or Territory is entitled to the benefits of the act. In time of peace the number of active militia for which each State or Territory shall be entitled to receive its apportionment shall not exceed 500 regularly uniformed officers for each Representative or Delegate in Congress. The purchase or manufacture of arms is required to be under direction of the Secretary of War, and the arms and ammunition shall remain the property of the United States, and be annually accounted for by each State and Territory.

*Goldboro Messenger.*

A Washington correspondent at Fort Bedford, Dakota, writes: "The condition of the Indians at the Poplar Creek and Wolf Point agencies is so deplorable that unless speedy relief is afforded, many of them will die from starvation. The food allowance is so meager that it is not sufficient in itself to keep them alive. The game is all destroyed, and they must either be fed by the government or starve. Of the 3,000 dogs in the possession of the Indians at Wolf Point one year ago not one is left. In addition to the dogs many of the horses have been eaten, and many more have been traded for food. Women and children are gaunt and hollow-eyed from starvation. Several of them have been found dead between their lodges and the agency, being so reduced by hunger as to be unable to resist the recent terrible cold weather."

**A CARD FROM TREASURER NEATHERY.**—We clip the following from the Raleigh *News-Observer*:

My attention has been called to certain statements going the rounds of the State press, to the effect that one J. H. Wiggin had "cheated Wake county out of \$1,600" that he had "presented forged orders to the commissioners of Wake," that he had "drawn money for school apparatus which he had never delivered," etc. Justice to all concerned requires that I should say that there is not one word of truth in these statements. Wiggin sold to the various public school committees of Wake county about \$1,600 worth of school apparatus, it was delivered before the orders were given on me—no forged orders was presented, and the orders were paid with the full knowledge and consent of the committees, the county board of education and the county attorney.

Very Respectfully,  
J. B. NEATHERY,  
Treasurer of Wake County.  
Feb. 28, 1884.

12:30 p. m.—Advices from Trinkitat this morning state that the battle raged all day yesterday, that the rebels fought desperately, and that immense numbers of them were shot down. The British, it is said, fought in an oblong square, and the rebels were beaten at every point.

12:30 p. m.—Advices from Trinkitat in regard to yesterday's engagement give the following information: The rebels were found in force with two guns mounted at an old fort three miles from Fort Baker. The firing opened on both sides and lasted a long time. The rebels were finally repulsed after 1,000 of their men had been killed. The British loss is 10 killed and 124 wounded.

After four hours of arduous fighting the British gained possession of the rebels' camp. The cavalry charged the retreating rebels, who did not halt, but gave the troops a blow for blow. The enemy retreated slowly, and the British kept up their fire. Gen. Graham decided to pass the night at the Teb wells. The advance on Tokar will be made to-day.

A telegram to the English war department puts the loss of the English in the battle at Trinkitat at 24 killed and 124 wounded. They captured four Krupp guns, two howitzers and one machine gun.

Durham will add one million dollars to the manufacturing capacity this year in cotton, woolen and tobacco factories. Eight hundred and fifty thousand dollars is already under way, and the residences to be built will average one for every day in the year. These are facts.—*Durham Recorder.*

It is spring. A resurrection of nature's latent forces is taking place. Like the world around you, renew your complexion, invigorate your powers, cleanse the channels of life. Ayer's Sarsaparilla is the means to use for this purpose.

Gen. Robert E. Lee.

New Orleans celebrated Washington's birthday by the unveiling of a bronze statue of Gen. Robert E. Lee, which is said to be the largest bronze statue ever cast in New York. The figure stands sixteen feet high on a plinth, and weighs nearly 7,000 pounds. It was cast in six sections, the head alone weighing 305 pounds. It represents Gen. Lee in an easy, natural position, standing erect with folded arms, as though overlooking the field of battle. He is dressed in a full service uniform, with cavalry boots, and the sword strapped at his side measures eight feet from tip to hilt. The stars, according to his wish, are placed on the lapel of his coat instead of on the collar. The figure was modeled in New Orleans by Mr. Alexander Doyle, and the work on the casting was begun last June. The entire cost has been defrayed by subscriptions in the South.

Methodist Centennial.

This year 1884, is a great and notable one in the annals of American Methodism. It will witness the celebration of the one hundredth anniversary of the Methodist Episcopal Church on this continent, and the celebration will take place in Baltimore December 27th, and proposes to continue its entire bounds with suitable services and by raising funds for educational purposes, church extension and missions—three noble objects to which the liberality of the Church will certainly respond. Two millions of dollars is the amount proposed to be raised for these objects, and that said sum shall be accomplished there should be no doubt; it will certainly not exhaust the treasury of this strong Church with its nearly nine hundred thousand members.

The Excise.

For the year ending June 30, 1883, there were collected in the several districts in North Carolina taxes as follows: On brandy distilled from fruit, second district, \$24,549; fourth district, \$21,634; fifth district, \$25,160, and sixth district, \$24,339. The total revenue derived from this source was \$95,743. On spirits the amounts were in the second district \$9,272; fourth district, \$9,946; fifth district, \$81,736, and sixth district, \$300,341. The total revenue derived from this source in the State was \$392,953.

The revenue derived from tobacco was in the second district, \$16,590; fourth district, \$809,270; fifth district, \$307,902; sixth district, \$151,453; total revenue derived from tobacco, \$1,812,306. The commissioner of internal revenue says that the cost of collecting in these districts was as follows: Second district, \$20,474; fourth district, \$42,687; fifth district, \$67,765; sixth district, \$19,248. Of this latter amount \$141,909 was paid for storekeepers and gaugers.

These figures are official. It is thus shown that the entire revenue on brandy in this State does not amount to \$100,000. In the United States it amounts to \$1,127,550. The cost of collection certainly equals the amount this tax yields. In the 4th district where \$809,000 is collected, from tobacco, and a lot of deputies are kept to look after brandy and spirits besides, the expenses run only to \$42,687. In the 6th district \$141,909 are paid to storekeepers and gaugers alone, while the receipts from spirits foot up only \$300,341.—*News-Observer.*

The Starving Red Men.

A correspondent at Fort Bedford, Dakota, writes: "The condition of the Indians at the Poplar Creek and Wolf Point agencies is so deplorable that unless speedy relief is afforded, many of them will die from starvation. Analysis and Relative Valuations of Commercial Fertilizers.

1884—I.

These reports are sent to all the papers of the State at the same time. They will be issued once a week or as rapidly as the analyses are completed.

The relative valuations merely furnish a convenient method of summing up the results of analysis and comparing them. They are not designed to fix the price at which the article shall be sold. It is impossible to give any one set of figures which shall represent the commercial value of those ingredients over our extended territory and throughout the entire year.

Since the beginning of 1883 the prices of superphosphates and "ammonites" have declined considerably, as is well known. We shall, therefore, use the following figures, as reasonably approximate, in calculating these relative valuations during 1884:

Available phosphoric acid 9 cts per lb  
Ammonia 20 cts per lb  
Potash 6 cts per lb

The figures before the names are the numbers of the analyses.</

## Commissioners' Court.

MONDAY.

Ordered by the board that Sanford Byerly and Harrison H. Thomas, be appointed trustees of what is known as Liberty Grove Union Sunday School, in the place of James Styers and Joshua Rights, two of the original trustees; the other one being James Gibson, to take charge of the property and look after the management of the same, for the use of Sunday Schools and religious meetings, as it was originally intended.

Whereas at a meeting of the Justices of the Peace of the county, held at the court house in Winston, on Monday, 11th day of February, the following motion was made and carried to wit: That the County Commissioners be instructed to appropriate \$499, to defray the expenses of a County Exhibit at the State Exposition to be held in Raleigh in October next. Therefore,

On motion, it was ordered by the board, (N. S. Cook voting in the negative) that the sum of \$499 be appropriated for the purpose of defraying the expense of a county exhibit at the State Exposition.

It appearing to the board that the stock law had been carried in stock law election held in Old Richmond township, on the 9th day of February. It is ordered that the stock law be in force in said stock law district from and after the 23rd day of March, and that notice of this order be given in said district.

It appearing to the board that the stock law has been adopted in that portion of Abbott's Greek township, embraced in the district in which an election was held on the 4th day of August, 1883, and that a good stock law fence has been built around the same: It is ordered by the board that the citizens of said district be notified that I forbear to occupy your space and your reader's repeating them.

The influx of visitors was so great that many of them had hard work to do in getting their trunks, boxes, &c. I did not occupy a box as I could not find one big enough.

I noticed particularly the site selected for the coming Cotton Exposition, which is a beautiful spot fronting the Father of Waters and about four miles distant from the city proper, accessible by land and road.

I engendered to mention the unwell no. 2 of the Lee Statue which took place May 1, 1882, and that a good stock law fence has been built around the same: It is ordered by the board that the citizens of said district be notified that I forbear to occupy your space and your reader's repeating them.
